

An On-the-Land WORKSHOP MODEL for Inuit Women

PREVENTING ABUSE THROUGH SUPPORTING WOMEN'S LEADERSHIP

NATIONAL STRATEGY TO PREVENT ABUSE IN INUIT COMMUNITIES

ACKNOWLEDGEMENTS

Pauktuutit Inuit Women of Canada would like to thank the many individuals and organizations that played a significant role in developing the Preventing Abuse Through Supporting Women's Leadership workshop models. Pauktuutit also expresses its sincere thanks and appreciation to its Board of Directors and staff. This project would not have been possible without their ongoing support and commitment.

Pauktuutit Inuit Women of Canada would also like to acknowledge Status of Women Canada, Women's Programs, for providing funding and support for this initiative.

BACKGROUND

NATIONAL STRATEGY TO PREVENT ABUSE IN INUIT COMMUNITIES

In 2007, Pauktuutit Inuit Women of Canada published the first such document developed by Inuit for Inuit. The vision of this strategy is an Inuit society of healthy individuals who respect the past and embrace the future as Inuit, and who live in supportive families and caring communities. In this vision, violence and abuse are rare occurrences that are dealt with swiftly and justly according to Inuit ways. Abusers are held accountable for their actions, and both victims and abusers are supported in their healing process.

This workshop was developed over several years as part of Pauktuutit's ongoing work to prevent violence and abuse in Inuit communities and is based on the *Somebody's Daughter* workshop designed by the Social Development Department of the Kivalliq Inuit Association. Traditionally, in order to survive in a harsh environment, Inuit values included survival, knowledge, love, sharing, caring, and strength, all of which are values still needed to survive in a healthy way today. *Somebody's Daughter* is an on-the-land workshop that uses a holistic approach to developing self-esteem, enhancing cultural identity and pride, and promoting healing through the writing of personal stories and experiences. It will also help your community to develop recommendations and/or future actions to address violence and abuse issues and priorities that are specific to your community or region.

This document will provide you with the information you need to hold a similar workshop in your region or community. It contains information to help you plan and hold such a workshop including daily activity programs, supplies and equipment, resource persons and some costs that you may have to consider. You will also find sample public notices, check lists, liability waivers, application forms and evaluation questions that you can customize for your own use.

The staff at Pauktuutit are available to assist you if you have specific questions or need some assistance. We wish you every success with your workshop!

OBJECTIVES

This workshop is intended to build individual and community leadership and support healing, based on Inuit principles of healing and working together, to address violence and abuse prevention. The broad objectives are to:

- Increase awareness of abuse issues and their prevention in Inuit communities;
- Increase capacity to lead and sustain prevention of abuse and family violence;
- Increase access to culturally relevant resources and networks to address abuse; and,
- Increase engagement, commitment and leadership capacity to prevent abuse and family violence at the community level.

When this workshop model was being developed, it was applied to two different but equally important issues: preventing violence and abuse against women and children and elder abuse. This guide provides sample outlines and discussion questions for both topics. You may wish to adapt it to discuss other issues that are a priority in your community.

WOMEN'S VIOLENCE AND ABUSE PREVENTION

The specific objectives of this workshop model are to:

- empower Inuit women of all ages to take on leadership roles in raising awareness of abuse, its prevention, detection, intervention and healing; and
- help sustain momentum in addressing the issue and fostering community engagement, planning and action.

ELDER ABUSE

The elder abuse on-the-land workshop is intended to educate, start a dialogue and create greater awareness of elder abuse. The main objectives are to:

- create a safe, elder-centered environment;
- increase knowledge and understanding of the issue;
- provide a space for elders to disclose and share;
- provide respite care away from their homes and responsibilities;
- conduct traditional activities as a way of healing;
- provide healing opportunities by being out on the land; and,
- empower elders.

FACILITATOR'S GUIDE

STRUCTURE

The days are loosely structured to allow as much time for sharing and healing as possible. The workshop can be scheduled for as many days as are possible or appropriate.

Mornings

Mornings are opened with a welcome and/or prayer. This is the time dedicated to the formal questions and discussions related to the specific topic. Please see below for a list of suggested questions to pose to the group. The first day of the workshop will include some time for filling out paperwork and introductions. The last day will also have some paperwork to be completed for the final evaluations.

Afternoons

Discussions continue during the afternoon.

Evenings

The time after dinner is for sharing. Participants may want to continue discussions from earlier in the day, or have had time to think about the topic. It is important to end the day on a positive note. Check in with the participants to see how they are feeling. Entertainment such as music or storytelling is a good way to end the day. Close the day with a thank-you or prayer. The time after dinner on the last day of the workshop will not occur since the workshop should end mid-afternoon to allow time to travel back to town.

A more detailed outline is included as Appendix Seven.

DISCUSSION QUESTIONS

ELDER ABUSE

The following is a list of questions that you may wish to use for discussions about elder abuse.

- 1. What do you know about elder abuse?
- 2. What does elder abuse mean to you?
- 3. How have you been affected by elder abuse?
- 4. How do you know someone is being abused?
- 5. Do you talk about abuse with others? How do you talk about it?
- 6. How do you ask for help?
- 7. What can you do to stop abuse?
- 8. How do you take care of yourself (self-care)?
- 9. What resources do you have in your community?

WOMEN'S LEADERSHIP AND ABUSE PREVENTION

The women's leadership workshop is centered on the Inuit principles of healing and working together. These six principles are listed below with questions to discuss during your workshop.

- 1. What is your role in your family? community? organization/work? (*Pilirigarigiinngniq* working together for the common good)
- 2. How do you stay balanced (mind, body, spirit) (Avatikmik Kamattiarniq –environmental wellness)
- What are good leadership qualities to have? How does that help your family and the community? (*Pijittsirarniq* – service to others and leadership)
- 4. How do you model and encourage success in your community? (*Pilimmaksarniq* empowerment)
- 5. Tell us about a time that you found a creative solution for a difficult problem? (*Qanuqtuurunnarniq* resourcefulness and adaptability)
- 6. How do you align your strengths to create change in your community? Do you see groups modeling this in your community? (*Aajiiqatigiinngniq* – cooperation and consensus)

RESOURCES AND SUPPORTS

ROLES AND RESPONSIBILITIES

You will need several people to successfully plan and hold your on-the-land workshop. These descriptions are intended to help you determine who may be best suited to help. This workshop has been held in Inuktitut only. More personnel or supplies may be necessary if you wish to hold a bilingual workshop.

Facilitator

The facilitator's role is to keep the workshop on track. They are there to ensure everyone has a chance to speak and share in the activities. The facilitator is there to engage and spark conversations and discussions about the subject material (either elder abuse or women's leadership). The facilitator will also be the main contact for the workshop. She will also be required to take notes of the recommendations made by the participants so you can plan additional activities to address violence and abuse prevention after the workshop.

Two Guides

The guides' role is to ensure that the operation and safety of the camp runs smoothly. The guides will make purchases necessary for the camp with the facilitator. They are not involved with the content of the workshop, but with the day-to-day running of the camp. The guides are usually male and have a commitment to be present at the camp for the duration of the workshop. They scout the camp location, they set up the camp prior to the participants' arrival, they transport the group and goods, hunt for supplementary food, and monitor for local wildlife (for safety). They are also responsible for tearing down the camp after the participants have returned to town. It is important that the guides are not visible during the workshop discussions. The sensitive nature and emotional exposure of the participants during the workshop must be highly regarded and guides must not intrude. The women-only safe environment must be respected. The guides will make purchases necessary for the camp with the facilitator.

Two Cooks

The cooks' role is to ensure that all the participants and personnel are fed. This may require some pre-prepared meals and supplies. The cooks are responsible for the food purchases with the facilitator and guides. They should be knowledgeable of preparing country food and food safety. The cooks should be comfortable with handling the propane or naphthalene necessary for the stoves. It is the cooks' responsibility to ensure that the meals are prepared for the participants throughout the day and in a timely fashion. The cooks may have to prepare food to bring as a bagged lunch or dinner depending on the activities involved.

One or Two Helpers

Depending on the size of the workshop there may need to be an additional set of hands working to support the camp. The one or two helpers may be assisting the cooks, the guides, or the facilitator. One job that is necessary is the duties related to the latrine. A helper, not responsible for the preparation of food or hunting with the guides, may be required to help with that job. They may be required to help with the set up and tear down of the camp prior to the workshop, and after the end of the workshop.

Two Counsellors

The counsellors' role is to ensure the emotional and mental well-being of participants. This on-call position is best held by a respected and trusted member of the community. During the workshop they support the participants during difficult times. They are required to be present at all times. The counsellors should be good listeners, non-judgmental, and open to helping whomever, whenever. They should be well acquainted with the subject matter and be prepared to speak to the group about it. They may also be required to conduct some one-on-one counselling.

Sewer/Traditional Skills Teacher (women's leadership workshop)

The traditional skills expert (often a sewer) has the role of teaching their skills to the younger participants. The sewer must be knowledgeable of working with traditional tools and materials. They should be prepared to work with those who may just be learning, and able to teach well.

COSTS AND FUNDING

The following are the estimates and descriptions of the costs involved and possible sources of funding.

Facilitator	\$500/day
Guides	\$250/day
Cook	\$150/day
Helper	\$100/day
Counsellor	\$300/day
Sewer	\$200/day (Leadership Workshop)

The cost of materials and supplies will vary with the size and location of the workshop. You can expect that the average cost of a 10-participant five-day workshop will be approximately \$30,000.

SOURCES

There are many sources of funding; both monetary and by donations of goods and services. Each community will have different opportunities and options for finding funding. You may wish to consider the following sources:

- HTA: The local hunter and trappers association may be able support the workshop, possibly as guides and hunters or by providing country food.
- Businesses: Ask local businesses what they could contribute.
- Government: Local and territorial/provincial governments may have funding for workshops.

LEGAL

There are some legal considerations to address before the on-the-land workshop can be held.

Your organization will likely have insurance to cover office property or injuries that may happen on company property. Check with your insurance provider to ensure that your insurance is adequate to cover any accident or other problem that may arise while you are on-the-land. You will also want to have participants to give their permission in writing so you can use any photographs that may be taken of them during the workshop.

LOGISTICS

This is a list of some of the tasks necessary for a successful workshop.

BEFORE

- Find funding
- Hire a facilitator
- Hire resource people (with the facilitator)
- Develop content with the facilitator
- Advertise the workshop
- Select camp location
- Organize routes and transportation
- Purchase and organize equipment
- Address safety and comfort issues
- Address legal issues (insurance, etc.)
- Select participants
- Meet with participants and staff in a group setting

During

- Set up camp
- Execute day-to-day activities (check-in or debrief each day)
- Collect paperwork
- Tear down camp

After

- Celebrate your successes!
- Compile evaluations
- Write final reports
- Follow-up as required (share photos, informal meetings)

SOMEBODY'S DAUGHTER: THE PAULATUK WORKSHOP

BACKGROUND

This workshop was developed over many years and is based on the *Somebody's Daughter* workshop designed by the Social Development Department of the Kivalliq Inuit Association. This section describes their project and successes, which may be useful to you as you plan your own workshop.

This section describes the experience of an on-the-land workshop held in Paulatuk, NT. It is included to provide specific examples of activities, logistics, and other elements you may want to adapt for your community. For example, a sewing project in the Western Arctic would differ in materials and style from those in the Central or Eastern regions, however the overall importance of good sewing skills cannot be overstated. Survival depended and still depends on being warm and dry.

Somebody's Daughter was created for Inuit women ages 18-85 as an opportunity for healing, learning traditional Inuit women's skills such as preparing skins, sewing and the creation of Inuit clothing based what each "daughter" wanted to learn or to work on. Sharing traditional wisdom and practicing traditional skills based on Inuit values increases the sense of self-awareness and pride of culture and empowers modern Inuit women to realize their potential skill and strengths for making healthy living choices.

A key component to the success of this on-the-land workshop was the participants' experiences and positive growth through the inclusion of elder women to the workshop. They provided input and support to the younger women through stories, guidance, and traditional on-the-land skills. Efforts to correctly "match" elders in small groups with younger women resulted in positive workshop experiences.

The people of Paulatuk are Inuvialuit. Despite its remoteness, Paulatuk has experienced high levels of loss of their language, Inuvialuktun. English was to be the language used at the workshop that linked the central Arctic community of Rankin Inlet, Nunavut with the western Arctic community of Paulatuk, NT. In June 2006, the Coordinating Committee on Abuse Issues in Paulatuk, NT expressed an interest in conducting an on-the-land workshop.

The Paulatuk Instructors consisted of a facilitator/instructor, a cultural instructor, a counsellor/assistant instructor, and guides/monitors.

GOAL

Programs and services that strengthen Inuit individuals, families and communities are essential to a long-term strategy to prevent abuse in Inuit communities. The Paulatuk workshop goal was to work with and support the Paulatuk Community Corporation's Aboriginal Healing Foundation manager to develop a model for a seven day on-the-land workshop.

OBJECTIVES

The objectives identified for the Paulatuk workshop were:

- To empower young women, mothers, and victims of violence by allowing them to learn traditional women's roles in their community;
- To promote healing through writing their personal life experiences and selfexpression;
- To enhance their creativity and realize their personal potential;
- To empower them to set higher personal goals and develop positive self-esteem; and
- To fulfill these goals through the delivery of an on-the-land workshop and introduce it to other Inuit regions.

TRADITIONAL SKILLS

The sharing of traditional knowledge from elders to the younger participants and the mastery of traditional skills leads to empowerment and increased self-esteem. Each day during the workshop participants were taught how to prepare country food or whatever skill is being practiced.

In Paulatuk, the participants were given an opportunity to learn how to make kamiks, "Nunavut style". Learning and making new patterns and understanding the history of different styles of clothing is part of the knowledge transfer between Inuit women.

During this workshop there was a wide range of ages of participants and the close family connections within the group meant that healing was emphasized more through the traditional skills than writing. The participants were highly interested in the sewing activities as this was something that was very new to them.

HEALING JOURNEY

The on-the-land program had a healing component in the form of writing workshops. It is a good way for the women to interact, as well as, sort out emotions related to abuse. Sharing this is important for the participants to develop trust with each other, as well as with the elders. The 'writing as healing' aspect of the workshop in Paulatuk included a variety of activities.

'Rage on the page' was an activity in which a participant would write and draw how angry she felt. To increase writing skills, the participants were asked to finish a sentence such as, "I feel as...as a...." They were then instructed to think of other creative ways to fill in the sentence.

Letter writing gave the participants a chance to write to someone (dead or alive) to say something they had always wanted to say but never had a chance. This writing exercise encouraged participants to take risks and express thoughts and ideas kept inside perhaps for a long time.

The 'blessings' activity was a positive way to say thank-you for all the good things experienced in life and helped the women to think about the positive things in their lives. These included a 'gratitude' or 'thank-you' list and/or poem that could be shared with the group.

The workshop offered other healing aspects. For example, a walk around the lake or hiking provided a safe and quiet environment in which to reconnect with nature.

The overall result of participating in such a workshop was that the women realized that:

- sharing ideas and trusting others would help them to seek help in their home communities;
- they had the option to choose a safe lifestyle;
- they were not the only one living with abuse;
- there were positive as well as negative things in their lives; and
- writing exercises helped to organize feelings so that issues might be dealt with one-by-one.

DAILY ACTIVITIES

Each day began with greetings and an opening prayer. Participants were then provided with an explanation of the day's events and groups, and matched with an elder who had similar interests.

The following activities can be arranged to suit the weather, but the writing activities are practiced daily.

Writing Activities: 'Rage on the page,' blessings, gratitude lists, 'finish the sentence,' journal entries and artwork were scheduled every day.

Traditional Skills: The traditional skills teacher taught the participants to cure food (making pipsi, m/nikku), and cleaning and preparing skins.

Counselling: The traditional skills counsellor taught the participants how to make kamiks for children (infants to 12 years old) as a form of therapy and relaxation as described above.

Healing sessions: There were various healing related activities such as sharing personal stories but the one emphasized every day was journal writing.

Exercise: Hiking outings were encouraged to reconnect with nature and to revitalize the spirit.

Recreation: Hunting and fishing were considered recreational activities, but also contributed to the food supply. Inuit games such as 'sock tops' and string games were also enjoyed.

End of day check-in: At the end of each day, participants shared their unique experiences or learnings. During this check-in, with its emphasis on feelings, elders and facilitators were able to determine if anyone were suffering stress.

EVALUATION

Pre and post workshop evaluation forms were created and used to ensure that the program and activities were helpful for the participants. This evaluation component verified that the program's success and is helpful to other communities that may want to undertake similar projects.

LESSONS LEARNED

Advanced Advertisement for the Project

Proper and advanced advertisements that clearly spell out the purpose and objectives of the workshop are crucial to attract a diverse group of participants. In smaller communities, a community meeting may be a way to clearly discuss the program and its intended benefit. Also, it is important to post the ads in prominent places that many people frequently visit, for example at the Northern store, post office or hamlet office. Local radio is also a very successful way to provide information to community members.

PARTICIPANT SELECTION

The application forms used for participant selection must clearly request the participant's age, life experience, and the reasons why individuals are interested in participating in the program. If there is an organizing body or committee running this workshop, a specific selection process may be more appropriate for your community. This will help the decision process if there are more applicants than spaces available.

INSTRUCTORS

It is important to obtain instructors with extensive knowledge of the different types of local traditional skills.

WORKSHOP PERSONNEL

- Helpers: The helpers for the on-the-land workshop must know their role within the project.
- Guides/Monitors: It is recommended that each workshop held at a campsite have two polar bear monitors, who would ideally be hunters with much experience on the land. These individuals would also provide important support such as hauling packs, drawing water, and other heavy work. It is also recommended that there be two guides/hunters to hunt for fresh food for participants, and that this group of helpers be hired a day or so earlier to set up camp. It is crucial that they know their respective roles and responsibilities to ensure the smooth running of the camp.
- **Cooks:** It is important to plan to hire cook/cooks so that instructors and other personnel are not also taking on these activities.

CAMPSITES

The location of the camp was about an hour boat ride away from Paulatuk, however the water source was not convenient. At the campsite, a nearby water source should be readily available at the site.

AGENDA

Maintain a balance between the writing and traditional skills components of the workshop so that the workshop is easier to facilitate.

EQUIPMENT

- It is very important that ATV and boat rentals are in good working order;
- Survival suits (floater suits) are essential for boat travel;
- It is preferred that a big tent is made available for participant to gather for sewing and journal writing. The same would apply for the washroom and cooking tents.

CONCLUSION

The project had a huge impact on the community of Paulatuk. First, a program was introduced to this community that facilitated the sharing of knowledge between Inuit regions. It was an opportunity for a small group of participants to come together to realize the importance of group and community relations. The project allowed them to connect and interact with each other outside of their community, as well as an opportunity to meet Inuit from outside of their community.

Additional outcomes included a realization of individual and community strengths. The community realized that they can make things happen on their own – all they needed was some direction and support from other Inuit with relevant experience. The importance of communities coming together as a whole to do a project like this cannot be overstated. Ideas and motivation from the project will continue for years to come.

This project truly encompassed the components of healing from Pauktuutit's National Strategy to Prevent Abuse in Inuit Communities:

- 1. Piliriqatigiinngniq working together for the common good
- 2. Avatikmik Kamattiarniq environmental wellness
- 3. Pijittsirarniq service to others and leadership
- 4. Pilimmaksarniq empowerment
- 5. Qanuqtuurunnarniq resourcefulness and adaptability
- 6. Aajiiqatigiinngniq cooperation and consensus.

APPENDIX ONE

COMMUNITY ANNOUNCEMENT

On-the-Land Workshop

We Are looking For Inuit Women Ages 21-75

ORGANIZATION:

will be holding an on-the-land workshop for Inuit women to discuss violence and abuse prevention in our community. This workshop will be held on DATE: _________ at LOCATION:

There are spaces for 10 – 12 participants.

The main objectives of this workshop are to raise awareness of violence and abuse in our community and talk about ways we can take leadership, as individuals and as a community, to prevent violence and abuse. We will also be sure our solutions are rooted in Inuit culture and values and will spend time with elders and facilitators doing cultural activities.

The topics may be difficult and quite personal so every consideration will be given to maintaining the privacy and confidentiality of participants. Counsellors will be available throughout the workshop.

Please contact <u>PERSON:</u>	
at <u>PHONE NUMBER: ()</u>	for an application form or
more information.	

Think about it – we would like you to be a part of this workshop.

WOMEN TAKING THE LEAD IN FAMILY VIOLENCE AND ABUSE PREVENTION

FACILITATOR'S GUIDE/SAMPLE DAILY ACTIVITIES

	DAY ONE	SUGGESTED ACTIVITY	FACILITATORS REFERENCES
			akfast
て	Morning	 Meet participants at designated location. Transport participants to camp location. Arrival at site. Orient participants to the site. Participants unpack and settle into the camp site. 	 Ensure that site is set up for participant's arrival. Ensure that some support staff are at site to receive the participants. Ensure that cooks are aware that lunch will need to be prepared for the participants. Cooks are to clean up after lunch, including dishes.
		Lu	inch
UW	Afternoon	 Opening prayer and introductions. Discuss confidentiality. Advise participants and support staff that the contents of the discussions must remain confidential and are not to be discussed outside the project. Introduce the purpose of the project. 	 Ask one of the elders to give an opening prayer. Introductions: each individual introduces themselves, including support staff. Ask participants to fill in the pre-workshop evaluation form. Have participants sign the confidentiality agreement. Cooks are to have evening meal ready and are to clean up after the meal.
	Dinner		
Ź	Evening	Recreation/entertainment activity.	• There may be more informal discussions that happen during the evening that can be an opportunity for healing.
	DAY TWO	SUGGESTED ACTIVITY	FACILITATORS REFERENCES
- 10		Brea	akfast
Ğ	Morning	 Introduce topic to the group. (For example, "what is elder abuse?", or "what role can I play in my community?"). 	 Refer to list of suggested questions and definitions. Ensure counsellors are available.
21		Lu	inch
	Afternoon	 Open discussion about "Has it happened to me or someone I know?" Ask if the participants have particular questions of their own. Take short health and stretching breaks. Bring the discussions to a close. 	 Encourage conversation about the topic. Asking participants if they know of anyone who may be living with elder abuse is a good way to open up the conversation. Ensure counsellors are available.
11		Dir	nner
Ľ	Evening	Recreation/entertainment activity.	• If there is interest, there may be more informal discussions that happen during the evening that can be an opportunity for healing.

	DAY THREE	SUGGESTED ACTIVITY	FACILITATORS REFERENCES	
2		Brea	akfast	
M	Morning	 Continue topic from previous afternoon. Ask participants if there are specific questions they would like to discuss. 	 Refer to attached resource materials for information. Have counsellors available. 	
20	Lunch			
ALC I	Afternoon	• Introduce "How do I ask for help." and "What can I do to stop the abuse?"	 Refer to attached resource materials for information. Have counsellors available.	
	Dinner			
	Evening	• Recreation/Entertainment.	• If there is interest, there may be more informal discussions that happen during the evening that can be an opportunity for healing.	

ADDITIONAL DAYS	SUGGESTED ACTIVITY	FACILITATORS REFERENCES
44	Brea	lkfast
Morning	• Traditional activity such as fishing or sewing.	 If the workshop schedule is long enough, take participants on the land for some traditional activities. Activities like sewing or storytelling can be done either at the camp or on the land. You can ask participants if there are specific things they would like to do.
Lunch		
Afternoon	• Continue activity.	
7-	Dir	ner
Evening	• Entertainment/Recreation	 If there is interest, the topic-related discussions can continue during this time. Engage participants in open discussion on week's topics.
FINAL EVENING	 Have participants fill out evaluation forms. Ask for feedback on improvements for next time. 	 Use this time to check in with all participants about their feelings about the workshop and returning home. This is also an opportunity for participants to talk about how they would like to continue to work together after the workshop.
A 10		

DEPARTURE DAY	ACTIVITY	RESOURCES	
	Breakfast		
Morning	 Wrap up/Closing Prayer. Pack belongings. Break down camp. 	• All camp helpers and participants.	
		Lunch	
Afternoon	• Return to community.
